- ★ Radial Ply Tyres & 12v. Electrical System
- ★ A Host of other Extras
- ★ Full 12 Months or 12,000 Miles Warranty

TheWartburg Knight saloon and estate cars are sensibly sized, luxuriously equipped and reasonably priced vehicles, to provide family transport in both saloon and estate car versions on the same theme. They are large cars (14ft. long) with truly cavernous boots, or, in the case of the estate cars, carrying compartments. The power unit is the well tried, three cylinder two-stroke engine developing 55 hp(SAE) at 4,500 r.p.m. which is simplicity itself with the basic moving parts reduced to a crankshaft and three pistons. There is no oil in the sump to be changed, no topping up of the radiator, as the cooling system is closed. Lubrication is by petroil mixture in the ratio 40:1. Power is transmitted to the front wheels through an all synchromesh 4-speed gearbox with freewheel and floor change, independent suspension all round is also employed, with coil springs and double wishbones in the front and semi-trailing arms in the rear. All models are luxuriously equipped with fully reclining seats covered in a combination of cloth and PVC leathercloth, heater and demister with through flow ventilation, mudflaps, adjustable headlamps, headlamp flasher, child proof locks on rear doors, built-in reversing lamps, wheel trims, cigar lighter, electric screen washer and windtone horns. The sophisticated 12V. electrical system incorporates special parking light switching. The car is shod with 165 SR 13 radial ply tyres. All in all, a most attractive and sensible combination of features, unequalled today at the prices asked.

TECHNICAL DATA

Three cylinder two-stroke engine, bore 73.5 mm. stroke 78 mm, capacity 991 cc. output 55 hp (SAE) at 4,500 r.p.m. max. torque 72 ft/lbs. at 3,000 r.p.m., sealed cooling system with pump, fan and thermostat, coil ignition, battery 12V. 42 Ah.

Single plate dry clutch, four speed gearbox with synchromesh on all forward gears and lockable free wheel; final drive ratio 4.22:1, overall ratios: bottom 15.92:1, second 9.11:1, third 5.68:1, top 3.83:1, reverse 14.29:1, front wheel drive through double jointed shafts.

Box type profile chassis, independent front wheel suspension with double wishbones, independent rear suspension on semi-trailing arms, coil springs front and rear, anti-roll bar at rear, double acting telescopic shock absorbers throughout, rack and pinion steering with divided track rod, hydraulic brakes with two l.s. in front, total friction material lining area 142 square inches, tyres 165 SR 13 radial tubed. Wheel base 8ft., track front 4ft. 2ins., track rear 4ft. 3in., kerb weight 17¼ cwts., overall length 14ft., overall width 5ft. 3ins. overall height 4ft. 8ins.
